REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

While it is known in the art to provide an outer periphery, an inner periphery (having) defining an opening for fluid communication between the pool and the skimmer assembly, and means for securing the faceplate to a pool sidewall, wherein the inner periphery further comprises a first arm generally projecting in a direction towards the skimmer housing, a second arm perpendicular thereto and a third arm generally perpendicular to the second arm such that it projects away from the skimmer housing (see US Pat No 6,701,542 to Marbach), in the examiner's opinion, the prior art fails to teach or fairly suggest combining the above elements with at least one arm including means for sealingly engaging a skimmer seal such that the skimmer assembly housing is not in fluid communication with the pool.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fred Prince whose telephone number is (571) 272-1165. The examiner can normally be reached on Monday-Thursday, 6:30-4:00; alt. Fridays 6:30-3:00.
